Name:

Class 7. Technologies as Forms of Life (*by Langdon Winner*)

1. What does Winner mean by the title of this article?

2. What are some of the examples that Winner uses to try to get us to understand the idea of forms of life?

3. How has the automobile structured society?

4. What does Winner mean by the phrase "technological somnambulism"?

5. Why are terms like "impacts" and "side effects" and "uses" inadequate?

6. What other language might we use in talking about the relationship between social and technological change?
